Notes:

- All Rates are Applicable on Chargeable Weight.***
- For Volume Weight, should apply the formal TACT rules set forth by IATA.***

The cubic volume of a consignment is established by applying the greatest length, the greatest width and the greatest height of the consignment or its packages. Consignments, the extreme dimensions of which result in an average of more than 6000 cubic centimetres/366 cubic inches per kilogram (166 cubic inches per pound), shall be charged on volume basis or Hong Kong Government approved scheme.
